

Birds of a Feather

Has your child ever asked “What kind of bird is that?”, “What do birds do when it rains?”, or “Where do those birds live?”

Join us as we observe our local birds in the different habitats available on Brookwood’s beautiful campus. We will identify different species, how they build their nests, what they eat, and the sounds they use to communicate. Through art, science, literature, history, music, and mathematics we will make connections and gain a deeper understanding of the

world around us. This class will be taught by our beloved Mrs. Adria Saunders.

Please note: this class has a minimum enrollment number of 5 students and a maximum capacity of 15 students.
