## The Story

Based on the international bestseller and award-winning book, *The Rainbow Fish*, this play features a variety of charming school and sea-creature characters. These “denizens of the deep” admire the famous Rainbow Fish, the most beautiful fish in all the ocean. But when the Rainbow Fish refuses to share their vibrant, shimmering scales, the whole ocean seems to turn against the vain creature. Unhappy that no one adores them anymore, the Rainbow Fish seeks out the wise Octopus. Octopus helps the young fish learn that it’s far better to be admired for being kind than for being beautiful.
